What were the circumstances that caused you to initially look for a financial adviser?

I had an old employers pension and didnt really know what it was invested in, whether it was doing well or not and what I needed to be paying into my pension for my future retirement.

How has Andrew helped you?

Everything is now in one place, I have visibility of my investments and I understand what its invested in. Andrew helps explain everything in simple terms that I understand and I feel more confident about my future financial self.

Have you seen the outcome you were hoping for?

Yes, in terms of it all being in one place and my understanding of it all. But the financial rewards/ outcome I dont expect to see in the immediate term. Its a long term investment.

What could they have done better?

What were the circumstances that caused you to initially look for a financial adviser?

After many years of being employed I became self employed in 2020. I needed to organise a private pension for the first time and Andrew's firm gave me advice on that.

How has Andrew helped you?

MWM asked me lots of questions to understand my future goals which was really helpful, it helped me with planning and prompted me to consider my options. Andrew gave me options, explained everything really clearly and helped me understand what I could do pension wise to better secure my future.

Have you seen the outcome you were hoping for?

What were the circumstances that caused you to initially look for a financial adviser?

We had multiple pension packages over a number of employers as well as a large cash pot from a employment separation agreement that was not invested an was moving to semi retirement.

How has Andrew helped you?

Yes, his initial input was not to consolidate pensions as these were giving a good return for low management fees already, this changed once I had reached an age where the corporate pension funds automatically moved to low risk investment and I was not able to change that. Given I still had an income stream it was recommended to move these to higher return options.

How has Andrew helped you since your last review?

I now have a pension which is performing many magnitudes better than the stagnant, apparently managed fund held by a previous provider. I appreciate that markets fluctuate but there's no substitute for a well-managed portfolio and to see it now performing at the very least in line with market trends, is a relief. I also appreciate the pro-active management, communication and advice because frankly, if it was left up to me nothing would ever happen.

What were the circumstances that caused you to initially look for a financial adviser?

I wish to try and retire early from my workplace, but due to rule changes, to do so incurs penalties on sums given by my employer, so I wished to enquire what strategies I could use to counter that by forward planning

How has Andrew helped you?

He went through careful points explaining what was, and not feasible in my personal circumstances financially that I could in a practical way peruse in the next 5-10 years to make my position stronger, but also spending time too carefully explaining in it's fullness ;Risk.

What were the circumstances that caused you to initially look for a financial adviser?

Not happy with my previous financial adviser, I felt that I needed to look for someone else. It became clear from the outset that I had made the right decision to meet with Andy and for the first time felt that my long term personal financial aims were in the right hands. Andy is down to earth, approachable and very knowledgeable. He listened to what I had to say and gave clear, concise and easy to understand financial advice. For the first time, I feel confident with my financial position and where it's going in the future.

What were the circumstances that caused you to initially look for a financial adviser?

Poorly performing pensions across a number of different providers.

How has Andrew helped you?

I admittedly don't know enough as I should about investment planning and pensions, but I knew enough to know that my existing pensions weren't performing as well as should be expected. These are pensions I've either had with previous employers or private pensions which I have chosen myself in the past. Andrew helped me to identify that their performance was in fact poor and produced a plan which would consolidate my various pensions in a way that I understood and where I could clearly see the benefit of doing so.

Have you seen the outcome you were hoping for?

Financially, not yet since insufficient time has passed to show a historic comparison of before/after. If peace of mind can be a measurable outcome, then yes I have.

What could they have done better?

Quite honestly, nothing. If my two aims were to address my concerns about poorly-performing pensions and to understand my options and eventual choices, they have both been met.

What were the circumstances that caused you to initially look for a financial adviser?

I was looking for assistance in analysing my current pension investments, with a view to determining if early retirement was possible at a level of income defined by myself.

How has Andrew helped you?

Andrew analysed my current savings and pensions position and confirmed that my goals

could be achieved, and that on-going wealth management could assist in the long term sustained retirement income within the normal risks associated with the markets.

Have you seen the outcome you were hoping for?

The plan is in the process of being executed. It is too early to confirm that the outcome has met the projected plan, however with Andrew's advise I have confidence that the goals will be met.

What were the circumstances that caused you to initially look for a financial adviser?

I was looking to place all my varied investments, pensions etc under better control and in the one place. Alongside that my goal at this stage was good capital growth with real tax efficiencies in mind and feel comfortable that I had an IFA that could help advise me when I needed to switch from capital growth to income delivery.

How has Andrew helped you?

As per above I've ensured I've been able to benefit from all or most of the tax efficient saving options out there for ISA's pension contributions etc whilst ensuring my portfolio was still steered towards sound investments offering the prospect of above the norm capital growth.

Have you seen the outcome you were hoping for?

So far I've seen very decent growth on my ISA portfolio and all the other funds and investments are moving nicely. That is helped by past positive stock market growth and setting a slightly above mid-range appetite for risk on my portfolio.

What could they have done better?

I think sometimes one needs to press a little more on charges {either direct or quiet splits from platform provider charges} and also how tied or not any IFA is to their platform providers products and services? Also how they are incentivised by their selected partner?

What were the circumstances that caused you to look for a Financial adviser?

I was considering transferring my pension from a defined benefits scheme to a personal pension.

How did Andrew help you?

Listened to my needs and concerns and gave the appropriate advice. He confirmed that the transfer was suitable for me, set up the new pension plan and recommended investment in funds which aligned with my needs and attitude to risk. He was the third financial adviser that

I had approached and brought to my attention things that the other two had failed to mention. And all for a very reasonable fee.

What is your current situation? Have you seen the outcome you were hoping for?

Even although I was lucky in that the transfer took place when the market was low and the increase in value of the fund has surpassed my wildest expectations, I am more than satisfied with my decision to transfer and to have Andrew looking after my changing needs.

What could they have done better?

Can't think of anything.
